

THE CLAY CITY TIMES.

50 Cents a Year in Advance.

We are here to help Clay City, the Surrounding Country and Ourselves.

J. E. Burgher, Publisher.

VOL. 10.

CLAY CITY, KY., THURSDAY, NOVEMBER 16, 1905.

NO 46.

Farmer Mayor.

Clay City, possibly, is the only city in Kentucky that has a farmer for Mayor. Mayor D. R. Daniel, Clay City's chief executive, has no occupation other than farming. He owns a good farm just beyond the city limits, and contents himself by humbly tilling the soil. Though he has no business interests in the city, Mr. Daniel has the welfare of the city at heart, and as much so, in fact, as any other resident of the city. He is making a good official and should have been re-elected.

Kentucky as a Corn Growing State.

The crop-estimating board of the Bureau of Statistics puts the average of corn per acre in Kentucky at 29.7 bushels for 1905, as compared with 26.9 last year, and 26.6 as the average for the last ten years. As the average for the whole country this year is 28.8, and for the past ten years 24.9, Kentucky appears above the average as a corn-growing State. The highest average in any State this year was 40.7 bushels for Indiana; the lowest 10.9 bushels for South Carolina.

NO CERTIFICATE

Accompanies the Ballot Box, So Vote in the City Election Has Not and Cannot Be Counted by Commission

SUIT TO COMPEL THE COUNT.

When the county election commission, which is composed of T. B. Ware, Roscoe Hall and Sheriff Thos. Boone went to count the vote of Clay City in the municipal election, it was discovered that no certificate accompanied the ballot box and as it was, there was nothing to show that there had ever been an election held. Under the condition of the circumstances and the law in the case the ballot box could not be opened and the count made.

The successful candidates have brought suit to compel the officers to open the box and make the count and give them a certificate of election so they can be sworn in January 1. To us it seems that their request and the real mandate of the law in the case is quite different, and that they are up against it with no legal election held. If such is the ruling of the court the present council and officers will hold over until another election is held. The matter cannot now be brought up until the March term of Circuit Court, so the present council will hold over until then anyway. It seems that a lot of powder has been prematurely burned in Clay City.

A Good Country.

Haven't you noticed the large loads of big corn coming into town the last few days? No better corn is grown anywhere than is now being delivered in the city and sold at \$2 50 per barrel. You see we have not only got a fine corn country, but we have a fine corn market too, as \$2 50 per barrel is 50 cents better than at neighboring towns. Remember, too, that this fine corn is raised on land that sells for from \$10 to \$20 per acre. What better could farmers want? They may want a better situation and may spend a lifetime and a fortune in search of one, but the farmer of moderate means will never find a spot on earth where he can invest his money in land and make as big per cent. as in the country surrounding Clay City.

Season Opened.

The bird law expired yesterday and you can now lawfully shoot and kill all kinds of game until Jan. 1, 1906. From many indications the law has not been enforced, but the raid on game has been going on just the same but of course, not to such a devastating extent as would have been the case had no law been passed. It is a pity that the greedy hunters can not be kept still till the law expires so those who observe the law can have as fair showing at the game as those who have a disregard for the law, but such is the case and always has been, so we must content ourselves in hunting the slim game when the law permits.

Dog Legislation.

Boyle county farmers have taken up the question of sheep-killing dogs, and will ask the next Legislature to enact a law that will probably give some relief. A bill has not been drafted, but the main points to be asked of the Legislature a law requiring each owner of a dog to pay a specified tax with each county as a unit. The money is to be held by the county treasurer and disbursed by him to the farmers who suffer losses from dogs. The fund thus acquired is to be known as the sheep-killing dog fund. The tax upon each dog will likely be placed at something like \$5 and in course of a few years a sufficient sum ought to be gathered to meet all emergencies or on the other hand there will occur a big slaughtering of canines.—Winchester Democrat.

Now in Jail.

O'Rear, the negro who stabbed Dr. Irvin on the streets in this city several days ago, had an inquiring trial before Judge Derickson at Stanton Friday and was held over to Circuit Court in the sum of \$500 bond which he could not give, so he was sent to jail, and as Circuit Court convenes next week he is good for a free trip to Frankfort soon.

License Expires.

Matt Conlee's saloon license will expire Saturday night, and J. M. Kennon's December 8th. After that date Clay City will be a dry town; provided, of course, the blind tigers are kept down, and we have confidence in our officers to believe that they will make a strong endeavor to do this.

A Glass Factory.

Col. Jack Chinn has struck it rich as his land holdings have been found to contain large quantities of mineral substances that are used in making glass. Mr. Chinn has organized a company of \$125,000.00 capital, and will install a large glass plant on the Kentucky river at Mundy's Landing, Woodford county.

MARRIAGES.

Married at the residence of Thomas Hardy in Powell county, Nov. 9, 1905, Mr. John Hardy, of Little Hardwick's Creek, to Miss Sarilda Neal, daughter of, I. C. Neal, near Clay City. May love joy and peace be with the young couple through their married life is the wish of their friend. Ceremony performed by Elder Albert Easter.

SPOUT SPRING.

As usual, the hunters in our community are very numerous.

I. N. Osborne, of Pilot View, was here last week buying stock cattle.

Joe Cosby has moved from near this place to a farm on Hardwick's Creek.

Zade Hodgkin, of Clark County, last week bought several head of cattle from different persons in this community.

If you have some broom corn which you wish to have made into brooms bring the same to the factory at this place. It will be worked up for you on very liberal terms.

Preaching at the Methodist church near here Saturday night Sunday morning and Sunday night by Pastor Prentiss. Let a good crowd come out to hear him.

Dudley Hall, a former resident of this community, has moved from Montgomery county, where he has resided for the past two years, to the farm of June Walters' near this place.

Elder George W. McIntosh, one of our leading farmers, raised this year for market something like one hundred bushels of Irish potatoes, and a lot of other vegetables besides. While this is merely a side line, Mr. McIntosh finds it a very profitable business, and encounters but little trouble in disposing of all the truck he raises on the home market.

Modern Judas Iscariots.

In the October number of the Christian Safeguard which comes to our table, we find a strong article written by Ruskin on "The Power of Money." To get rich Judas betrayed Christ, and when he found that Christ would be killed he threw away his money and hanged himself. The article leads up to the question of how many of our present money-getters who betray Christ by robbing the great trusts they hold will have the grace to hang themselves?—Dumb Animals.

Peat is a substance that promises to rival coal in the use of firing locomotives at least in the East where it is very plentiful. It makes a very hot fire, is cheaper than coal and is practically a smokeless fuel.

Kansas corn crop is estimated at 250,000,000 bushels, valued at \$5,000,000.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer One Hundred Dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Let's Turn to Business.

We are indeed glad that the election is over that we may devote more of our time and attention to real business. At best, politics is a bad business, and is always attended by more or less unscrupulous suffrage traffic.

Let us all now turn to business and recuperate our losses that we may be ready for the battle again next year. In business a Democrat looks no better to us than a Republican; in business, our political foe is our best friend; in business, we know no politics. Our best social friends and closest business colleagues are frequently our strongest political enemies. Yet the same is always maintained on our part in the very best humor and kindest friendship. Let peace dwell ever with us regardless of the strained political situation that may occasionally confront us.

Value of Education.

The average educated man gets a salary of \$1,000 a year. He works forty years, making a total of \$40,000 in a lifetime. The average day laborer \$1.50 a day 300 days in a year, or \$450 a year. In forty years he earns \$18,000. The difference, or \$22,000, equals the value of an education. To acquire this earning capacity requires twelve years at schools of 180 days each, or 2,160 days. Divide \$22,000 by 2,160, and it is found that each day at school is worth a little more than \$10 to the pupil.

Wants Something Better.

H. Clay McKee, who was defeated for County Attorney in Montgomery county last week, has just learned that the place was too small for him any way, and will be a Republican candidate for Congress in this district. He will get no better satisfaction in this race than he did in the race for County Attorney.

"A physician can not prescribe and furnish to the patients whiskey or alcohol not mixed with drugs, unless he has a revenue license, even though the whiskey or alcohol is to be used for medicine only," says Commissioner of Internal Revenue Yerkes.

The Constitutional Amendment is lost. Is was defeated by the party that has been howling fraud and corruption ever since the new method of voting has been passed. It is strange they want this corrupting and fraudulent method retained.

An inheritance tax law will, it is said, be a feature of the measure to be presented to the General Assembly by the Senate Committee on Revenue and Taxation.

Missouri authorities notify officials of the New York Life Insurance Co. that they must either restore the \$148,500 given to party campaign funds or withdraw from doing business in that state.

If half of the current rumor is true the result of Tuesday's election in Powell county, was caused by the work of soreheads and political traitors.

The brewers told the President that beer was "sobering the nation." There are many earnest advocates of that sort of temperance.

Workers Needed.

The following interview in the Courier-Journal with the manager of an employment agency shows the tendency of those seeking work to turn down good places in the country for harder and inferior ones that have the sole recommendation of being in the city.

"Stenographers, bank clerks and professional or semi-professional men of every kind are a glut on the market, but the honest and reliable man who works and is willing to take work on a farm cannot be found," said the manager of a local employment agency. He has been conducting an employment bureau in Louisville for forty-five years and is not at all pleased with the present conditions.

"Any honest and well-meaning man or woman, race, color and breeding notwithstanding," said he, "who comes to me and asks for work can get it. It may not be at as high a wage as they expect, but it will be honest and respectable. No one with good references will be refused. I send away many people every day because they cannot substantiate the good character they profess to have, but I have had applications for good and reliable men on my books for months and cannot fill them."

"Everyone nowadays is looking for an easy berth, a place where they can get their money and get it with the minimum of labor. In preference to a place on a farm where the surroundings are healthful, many men will take work in groceries, in fact, in places where they are not as well off by any means as in a place on a farm. Altogether unfit for commanding, they refuse to accept subordinate ones."

BEAUTIFY YOUR HOME WITH KINLOCH PAINT

Important Memorandum—The painter of the most important factor in painting. A job contract, done by a good painter will be the best quality of paint, costing less (50c. per gallon, 50c. per gallon) and will last longer (100c. per gallon) than the "per-year" of the good painter's job is \$1.00—the poor painter's job is \$1.00.

A small investment in paint adds greatly to the value and beauty of your property and makes you a "good neighbor" by making a good neighborhood. Good painting is one of the best investments and pays big returns in improved values. It's a saving, not an expense. But when you paint—buy only

Kinloch HOUSE PAINT

There's one indisputable reason why, a reason every honest painter will acknowledge—"The Oil is the Life of Paint," and the sure way to get good oil is to buy it fresh and pure from the dealer's barrel, not from the ready-mixed paint can. The paint that is ready to mix with linseed oil, gallon for gallon, is KINLOCH PAINT, and we recommend its use for every good reason we know.

Scarcity of Eggs.

It is a noticeable fact that eggs are at present a very dear and scarce article, and the complaint comes from all over the country. This is only a repetition of what occurs each fall, so it seems to us that our farmers' wives should make special effort to meet this yearly emergency.

Small Blaze.

Near noon time Friday morning fire was discovered on the third floor of electric light building, but it was soon extinguished with slight damages. The fire caught from falling sparks from the planing mill smoke stack. A window sill was fired first from the outside.

Not Quite Enough Yet.

The turkey crop, though somewhat larger than in former years, is not large enough to have much effect on the price situation, so country editors will have to continue doing without a Thanksgiving turkey unless some delinquent takes mercy on his creditor and rightfully relieves the depressed situation.

Knocked Senseless By Buzzard.

While William Adams, of Aurora, Indiana, a section foreman on the B. and O. S. W. Railroad, was taking dinner, he was knocked senseless by a blow on the head from a large buzzard, which came in contact with a telegraph pole and fell. The bird had a bell around its neck and a tag on one of its legs, which bore the inscription, "S. Thurman, Winchester, Ky., September 9, 1898." The bird was captured and because of its unusual size will be presented to the Cincinnati Zoological Gardens.—Cincinnati Enquirer.

If You ARE A Democrat

Or if You are not You will want to read

Bryan's Commoner.

ON MARCH 17 The Commoner announced the Primary Pledge organization plan. This plan provides for Democrats to sign a pledge, binding themselves to attend all primaries of their party between now and the national campaign of 1908. It is a practical method for the organization of the party by the rank and file, in order that it may prove true to its name and be the efficient servant of the people in the establishment of reform. A little investigation will convince you that the Commoner has hit upon a feasible and effective method of persuading Democrats to participate in the councils of their party.

These pledges are pouring into the Commoner office by the thousands, where they are carefully filed by state, county and voting precinct.

If the same interest manifested in this work during the past four months is maintained during the next two years, the total membership will exceed four million Democratic voters.

The Commoner is issued weekly, subscription \$1 a year. By special arrangements, for a short time only, we offer the Clay City Times and The Commoner or one month for \$1 10.
